Graduate Students Honored At Banquet and Dance

CROSSFIELD. — On May 19 in the community hall, the Crossfield High School honored their graduates, Eleanor Borbridge, Bob Kotou, Gerald Hirt and Terry Dexter at a ceremonial banquet and program. The Home and School catered for the banquet.

The students had very tastefully decorated the basement of the hall for the occasion. The tables were laid, adorned with school colors, spring flowers and place cards for 150 guests.

Mr. Mumby, principal, and a group of student boys waited at the front door to admit and direct guests. Descending stairs guests were graciously received by Mr. Mumby, Miss Melkjohn and a trio of student girls who made a charming picture in their pastel formals and a tasteful impression with their warm hand shakes and cherry smiles.

Junior students conducted the guests to their seats where all was attentive during the song of grace. The banquet was sumptuous and thoroughly enjoyed and was served by juniors.

Charles Smith was master of ceremonies for the occasion and certainly master of himself as this role could not have been performed more perfectly.

The following is a copy of the program:

Toasts: The King—Marge Banta. Reply—God Save the King. Solo—Joanne Copley. Toast to Graduates—Don Borbridge. Reply—Terry Dexter. Piano duet—Edna and Ada Jensen.

Toast to ex-Students—Eleanor Borbridge. Reply—Keith Bannister.

Duet—Vivian Miller and Joyce Cole.

Toast to Home and School—Barbara Bills. Reply—F. Laut, president, Home and School.

Piano solo—Beth Landymore. Toast to School—Mr. H. McDonald. Reply—Mr. B. Stillings. Introduction of guest speaker—Chas. Smith—Rev. Collett.

Thanks to guest speaker—Chas. Smith.

Presentation to graduates—Lawrence Lilley.

Vote of thanks to the ladies—Kay Kotow.

Announcement of dance—C. Smith.

Mr. and Mrs. Mumby received gifts from the H. school for which they voiced their thanks.

Rev. Collett from Mount Royal expressed amazement at what he termed the ability, finesse and maturity of the students. Their talent, he said, reflected back to their principal whose wonderful phases of education had not been wasted. He won the hearts of all as he spoke, in lighter vein, of boyish school pranks which he himself had become involved in, more pensive mood he dealt with play, work, love and faith as incentives to guide future activities. The talks by Mr. McDonald, Mr. Laut, Mr. Stillings and Mr. Mumby were educational and closely linked the subject and people, relative to the school training.

The toasts by the pupils were free and impressive—not a note was in evidence. They deserve great praise. A wonderful dance brought the program to a close.

Justice Lodge Members Fete Sister

CROSSFIELD. — Mrs. C. E. Richardson, a gracious hostess, threw open wide the doors of her home to admit a large gathering of Crossfield Rebekahs, who chose Friday, May 19, to honor their sister, Alice Pullan, a veteran member of the organization of 30 years' standing.

The afternoon was a little farewell party prior to an anticipated sojourn to hospital and a future residence in Calgary. On behalf of the lodge members, Grace Pullan with a rosebud corsage as a token of the esteem in which she is held in Justice Lodge, and to wish her well in the hospital and a happy life in the city. A very delicious lunch was served by the members; the table flowers were gathered together and Sis. Mac Fox carried them to another veteran member whose health is poor, Sis. Isabel Wilks, who was unable to attend due to illness.

Baseball Organized In Crossfield

CROSSFIELD. — The baseball team from Melvin proved a bit too much for our local ball team on May 17. It is felt that a little more support for our boys, a little better ball diamond and a little safer netting might improve the situation.

The softball team from Tan-Y-Bryn, May 12 took a whipping from the Crossfield students, who were a little bigger and heavier on the bat which brought in many home runs. Mr. McDougall had a wonderful cheer leading group, perhaps that is what helped our sport.

Nurse Wins Proficiency Award

CROSSFIELD. — Nurse Mabel Lundeen of the Holy Cross hospital graduating class, is receiving congratulations on having been presented with the "Proficiency Award" at the graduation exercises held in the Capitol theatre, Calgary, Sunday, May 7. Mr. and Mrs. Alfred Edlund, with whom she has made her home for many years, presided later in the evening at a reception held in her honor in Picardy's Rose Room.

Mabel, who is a very popular young nurse received many lovely gifts which marked the esteem in which she is held by her many friends and relatives.

Mr. Lynn Price Receives B.A. Degree

CROSSFIELD. — After four years of extensive study, Lynn Price, son of Mr. and Mrs. A. E. Price of Crossfield, last week graduated from University of Alberta as a chemical engineer. His parents motored to Edmonton to attend graduation exercises. Crossfield and district offer sincere congratulations and best wishes for Lynn's future career.

Delivers Address At Convocation

Among the hundreds of graduates at this week's University of Alberta convocation, pretty Ruthleen Tanner, 11148 38 avenue, South Edmonton, was chosen to deliver the history of the class of 1950 at valedictory exercises. She is the daughter of Mr. and Mrs. H. E. Tanner, and has two older sisters who are also University of Alberta graduates.

Crossfield in Tabloid

CROSSFIELD. — The village council is considering the appointment of a town policeman in Crossfield.

Mrs. Patullo and Bill, of Airdrie have received their share of sorrow lately in the loss of three immediate relatives within the course of a few weeks.

On Saturday, May 20, a work bee was organized to help Chas. Aldred, who is very ill in a Calgary hospital. Many tractors and machinery of various sorts made short work of the remaining seeding and summer fallow.

Mrs. Isabel Thompson has purchased Mrs. Gemmill's home next to the United church manse. Mrs. Gemmill will visit a brother in the States for a while and will, in all Cranbrook, where her daughter and son-in-law Mr. and Mrs. Herb Simpson reside.

The WA sewing group of the United church met Tuesday afternoon in the church parlor. They are sewing blocks for quilts under leadership of Mrs. Ballam. Mrs. O'Neill will take Mrs. Ballam's place as leader soon.

Charlie Aldred is quite ill in the Calgary hospital.

We hear that John Chalmers is allergic definitely to hospitals since reading a column which contained a report on the health of John Robertson, another Crossfield bachelor.

All the young Crossfield fathers are recovering nicely.

Mr. and Mrs. Gordon O'Neill of Windsor, Ontario, have motored to Alberta where they will spend a vacation visiting with friends and relatives. They are now the guests of Mr. and Mrs. Garnet O'Neill.

Former High School Teacher Honored Graduate

Former high school teacher, university graduate, Mrs. Brogan, who taught at Crossfield school for some years, paid a fleeting visit to our town, renewing acquaintances with Mrs. Charney, the teaching staff and other friends. Mrs. Brogan graduated with high honors and has attained her degree in arts. She will go to summer school and then university again in Edmonton to study for her master's degree.

MADDEN MURMURS

The Bush League Baseball will get underway on Sunday, May 21, weather permitting. There will be four teams in competition—Dog Pound, Water Valley, East Community and Madden. Games in Madden will be held on Sundays at 2 p.m. and will be played there on the following dates: May 21, June 11, June 25. This will be followed by finals and semifinals.

Seeding has progressed favorably in spite of high winds and much of the crop in Madden is already up.

Mrs. Marion McCrae and Monte of Pincher Creek, left for home on Thursday after visiting the former's brother-in-law and sister, Mr. and Mrs. Lawrence Stone of Madden.

Mrs. J. Hamilton spent last week in Red Deer.

Mr. and Mrs. H. Walsh have enlarged their house and have installed a water system.

Mr. F. Parker has had his house from Crossfield moved to a site east of Madden and is busy getting settled again.

Lions Club To Elect Officers

BEISEKER. — In the coming elections for the Beiseker Lions Club, the nominating committee, J. H. Schmalz, Fred Lavoie and Carl Lohrke have submitted the following slate of officers for the coming year:

*President, pending; vice-president, Ken Wright; secretary-treasurer, F. H. Wright; Lion, Tamer, L. Bunyan; Tail Twister, Peter Ternes; new directors: Carl Lohrke and Roy Berthel.

Elections will be held at the next meeting of the club on Monday, June 6.

Beiseker Opens With Impressive Ball Team

BEISEKER. — Beiseker ball club opened their ball season with an exhibition game in Beiseker on Sunday afternoon by defeating Crossfield with a score of 15-4.

Each team scored two runs in the first inning, and then settled down to give a good exhibition of ball until the fifth inning when Beiseker started a merry-go-round and scored 12 runs.

Leonard and Ray Schmalz did the hurling for Beiseker; Woods Stamp and Wigle for Crossfield.

The Beiseker team shows promise of giving a good account of itself in the KIBA League. The opening game of this league will be against Irricana in Beiseker on Sunday the 28th. Let's get out and support our home team.

Letters to the Editor

CANCER FACTS:

Dear Sir—Regarding the many editorials about cancer, and the alarming statistics. Wouldn't it be a good idea to publicize the many cases where a cancer has been permanently cured? This would be real encouragement for those who have cancer, and would cause others to seek help before it was too late.

I know of two cases where the sufferers have avoided seeking aid for many months, but went within a few days after being told of a complete cure in our family.

Killam

L. G. H.

FIND OUT THE TRUTH

Dear Sir—I was surprised to see your paper giving so much prominence to the Protestant League, because before editors publish stories, they should be certain that the statements are true.

If people would take the trouble to go to Quebec and find out the truth it would be entirely another matter. There is no doubt about it and the public can be assured that the "Christian Brethren" were not preaching the knowledge and love of God. These so-called religious sects that the Protestant League takes under its wing think that freedom of religion means freedom to attack the Catholic church.

The Jehovah Witnesses go further. They say "raid the church like a swarm of locusts, make yourselves as great a menace as possible." Is it any wonder Quebec asks them to move on? The Salvation Army preaches in the open and they have no trouble.

I like your paper, let us go on enjoying it, and let it be a paper to promote good will and love of God and neighbor.

Yours for a United Canada.

South Edmonton

Mrs. G. ROBBINS

PUBLIC AUDITORIUM

Dear Sir—A question on my mind, and I am sure on hundreds of other people's minds, is why Edmonton has not got a public auditorium.

Every day we hear of the proposed Miracle Mile, but as yet nothing concrete has been done. Why should the people not step in and see that one is built? The only thing necessary for success would be public approval. This is just a thought, and it may never be real, but it is sorely needed in this city.

DAVID WARD.

South Edmonton.

MOUNTED POLICE

Dear Sir—Your recent article on the Mounted Police is very commendable—it is very fair to all concerned. I'm glad to see that your reporter took time to investigate and thus did not give your paper the slander sheet appearance.

You have had some interesting articles lately, and I really do look forward to getting the paper every week. Hope you continue your good work with future write-ups on important subjects.

Lethbridge.

SCRIPTURAL MEDITATIONS

By AINSLEY BLAIR

As your senses delight in the attractive loveliness of the earth, think of the world that is to come, that shall never know the blight of sin and death; where the face of nature will no more wear the shadow of the sad. Let your imagination picture the home of the saved, and remember that it will be more glorious than your brightest imagination can portray. In the varied gifts of God in nature we see but the faintest gleaming of his glory. It is written, "Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love Him."

SCOTT'S SCRAP BOOK

Roads for the Oil Boom

For an industrial boom ever to really amount to anything, good roads are an indispensable requirement. Unfortunately, in the midst of a new industrial dawn creeping across the Alberta plains, this one indispensable element is alarmingly lacking in certain parts of the province.

To state the case bluntly, although excellent roads prevail in some sections of Alberta, others amount to nothing more than political strips of disease. One of the worst sections of highway runs between Redwater and Edmonton. And with such a gutted road leading into Canada's largest oil field, how can it be said that Alberta is taking fullest advantage of her fabulous wealth?

Perhaps the close-mouthed D. B. MacMillan, minister of public works, could enlighten us on this subject. On the other hand, if he's as reluctant to speak out on this subject as he is to reveal other information on the expenditure of public funds, we will probably never learn much from this source.

At any rate, Alberta requires a drastically more efficient method of highway construction than now prevails.

In the age of the machine, one thing this paper has never been able to understand is why pick and shovel plays such a big part in road building. For while hand tools might be quite suited to cooie labor on the Burma road, the pick and shovel is an anachronism which in this country should be relegated to the museum.

Industrial experts have produced road building technology which could sweep across the land laying superhighways in its path. Why isn't this being done? Not rich enough? Not enough people?

It's all right to spend millions a day waging war, though, isn't it?

Moreover, in the long run, fine roads are cheaper than "cow paths" because they're so much cheaper to maintain. For a higher initial cost, which is after all just an investment in the country, millions could be saved through easier maintenance of the roads and tremendous financial saving to motorists.

25 Million Communists

Recent reports in the Soviet press claim there are about 25,000,000 Communists in the world.

The party in the Soviet Union is the largest, with 7,000,000 members. Next comes China, with 4,000,000, representing an increase of 1,000,000 in the past year.

The largest Communist group in Europe is claimed in Italy, where there are an estimated 2,532,000. Czechoslovakia, Poland and Romania are put down for 2,300,000, 1,360,

000 and 1,000,000, respectively.

The figures printed in Moscow reflect important losses in some European countries. In France only 800,000 members are claimed as against 1,300,000 in 1947. In Hungary the estimate is down to 950,000 from 1,150,000. Altogether the Communists outside of Russia are estimated as about the same figure as 1949, apparently showing that gains made in China about balanced the losses from resignation or purges in European countries.

Why You Hear Squawking

So far as we have been able to observe, there are two kinds of taxes; good taxes and bad taxes.

Good taxes are those that are levied upon other people and bad taxes are those that make us pay.

Likewise, there is wise expenditure of public money and foolish expenditure of such funds.

Wise expenditure promotes our

idea of a public necessity and may afford us an opportunity for a little profit on the side) and foolish expenditures are those which, so far as we can judge, do not directly put cash, or benefits, in our pockets.

If you will thoroughly understand the distinction and we make in regard to taxes and expenditures, you will be able to understand a great deal of the squawking that you hear roundabout.

Doctor Treats Circus Pets

From The New York News

All physicians have interesting experiences but some obtain positions that enable them to cope with unusual circumstances.

Dr. Joseph Halton, the physician for the Ringling Brothers circus at its winter quarters in Sarasota, Fla., probably could tell a dozen hair-raising tales.

In the Florida Medical Journal, Dr. Halton discusses some of his experiences. His original contact with the circus came through the illness of the orangutans. They were dying rapidly and he discovered that pulmonary tuberculosis was responsible. These animals were stupid and surly and individuals who came in contact with them always had to be on guard because the beasts had the habit of grabbing a hand and promptly biting off a finger.

Gargantua the Meaneat

The gorilla, Gargantua, was the meanest creature in the lot and for good reason, considering that he had been mistreated before coming to the circus. On one occasion, Dr. Halton was called by an attendant who thought the ape was dying of dysentery. He was lying on the floor as limp as a rag.

The physician slowly poured four ounces of paragonic and blamouth down the animal's throat. This was not without danger because the brute could swing his arms with such lightning speed that no one could dodge them. The old boy recovered.

How would you like to operate on an elephant? Tying the animal down was a matter of pitting the ingenuity of man against the strength of the animal. Once he was down, the anaesthetic was administered. Every cutting tool and every cautery he had in order to drain an abscess in the animal's right knee. The lesion extended to the shoulder and it was necessary to cut through the hide for a distance of four feet. The elephant lay as still as a mouse. His convalescence was normal.

Rural Power In Alberta

From The Canadian

There is quite a campaign on now to upset the status of electrification in Alberta, from privately owned to publicly owned facilities. The plebiscite two years ago was close, but now the privately owned corporations should be given the opportunity to demonstrate what they will and can do to justify their existence. Chester Sayers was quite right when during the debate in the legislature he stated that many farms were too isolated to be served by either a privately owned or publicly owned utility. Most of the arguments used on behalf of public ownership in the present campaign are based on Manitoba's publicly owned utility. Why not use some material from Saskatchewan? Manitoba has had a surplus of power since 1910, till now. Her farm population is highly integrated, compared with either Saskatchewan or Alberta, thus reducing the transmission costs to a comparative minimum. Saskatchewan is having a tough time. Her water power resources are not near enough to her centres of population, and her fuel costs have been high. Now she is preparing to employ natural gas for fuel and possibly the low grade fuel oils from the Lloydminster fields. Publicly owned services are not necessarily free.

SMILES

REPUTATION ESTABLISHED

Foreman (to applicant with slight py. sique): "Do you think you are fit for really hard labor?"

Applicant: "Well, some of the best judges in the country have thought so!"

A CONCESSION

Sandy was learning to play the bagpipes. One night, while he strutted about the room, skirling for all he was worth, his wife attempted a mild protest.

"That's an awful noise you're making," she said.

Sandy sat down and took off his boots; then got up and resumed his piping in his stockinged feet.

Mounted Police Grapple With Widespread Narcotic Syndicate

By Raymond Argyle

Alarming growth in the increase in narcotics trafficking in Alberta, indicated in the increasing number of convictions under the Drug and Narcotics Act, has spurred RCMP into an all-out drive against offenders.

Grappling with what could be a nation-wide syndicate, latest conviction in Edmonton courts came this week when Muriel Lee, attractive 22 year old Vancouver woman, was sentenced to two years in prison and a \$300 fine or additional six months.

Arrested on a charge of illegal possession of drugs, the woman entered a plea of guilty, and admitted several previous convictions, including drug counts.

Cpl. Herb Silver, RCMP, told the court, presided over by Magistrate S. G. Main, that he and Detective Jack Langford, of the city police, arrested Mrs. Lee May 12 in an Edmonton hotel.

Cpl. Silver said the accused had one grain of heroin in her hand. An eye dropper and hypodermic also were found in her possession, he related.

Indication that she may be connected with a wide-spread narcotic syndicate is the fact that she had been associated with a gang of seven recently convicted in Vancouver courts for similar offenses.

Their conviction was brought about when police seized a shipment of drugs bound for the gang from a Toronto group.

Such signs of illicit trade in all type of drugs from the lowly sleeping pill to the deadly, habit-forming masters, morphine, cocaine and opium, is worrying sociologists, educators, and law enforcement officers all over the

Create New Method To Deal With Predator Coyote

By NANCY COXFORD

MANNVILLE. — The Torrance brothers, Edwin and Leslie, drove out to the Sloan farm on Sunday with the intention of getting a shot at some coyotes which had been causing a disturbance on the farm. However, on arrival the coyotes were conspicuous by their absence, so they decided to investigate the coyote den.

They dug an opening into the den about ten feet deep, then lowered Edwin into the hole by a rope tied to his ankles. He came up with five baby coyotes.

They brought them back to town and some discussion arose as to their species. The pups have white feet and local experts say that coyotes do not have white feet. However, they all agree that they have never seen them so young, these didn't even have their eyes open, so they deem it possible that they change color at a later stage. They intend to settle the question by reference to higher authority this week.

nation.

There are about 4,000 known drug addicts in Canada. But even though drug addiction has been on the increase since the late war, it has not yet reached such serious proportions as during the post World War I period.

The majority of confined drug addicts are professional criminals, though there are countless thousands of neurotics—some of them professional business men and women—who have turned to narcotics as an escape from their turbulent personal difficulties.

High cost of living has inflated prices in the illicit drug trade.

An ounce of adulterated heroin sells for about \$500, and morphine is even more expensive, costing as much as \$2,500 an ounce. Such drugs are usually sold to addicts by the grain, at a cost of about \$1 for heroin, and \$5 for morphine.

At these prices it costs most addicts \$20 to \$50 a day to satisfy their insatiable craving. Whether the drug is taken into the body by means of the cigaret, the needle or the pill they almost invariably turn to crime to secure such large amounts of money. At the present time almost nothing is done to imprisoned addicts to help them in throwing off their craving for the evil. In some cases they even manage to go on getting the drugs while in prison. And after they get out, after no matter how long a spell of imprisonment, they seem to almost always return to their old ways.

"Simply Awful" It Reaction To Winnipeg Flood

By ROSE MARTEL

MORINVILLE. — A Winnipeg family, victims of the rampaging flood waters of the Red and Assiniboine rivers, has arrived in this community north of Edmonton, after abandoning their home in the Manitoba capital.

Mrs. Eric Porter and her two children, Brooke, aged 3, and Erica, 5 months, arrived here last Friday. Her husband is an inspector in the RCMP and is presently stationed in Vancouver.

Mrs. Porter's home is located near the Maryland bridge on the banks of the Assiniboine river. When she left, the water was flooding her home. But with all the furniture and personal possessions stored in the top floor of the house, and Mrs. Porter hopes that the water will not rise above the main floor.

She has two cousins still in Winnipeg, who reside on the opposite side of the river. Mrs. Porter took up residence in the city only last September.

When asked how it felt to witness the flood, she replied, "It's simply awful."

Another Winnipeg resident who is staying in Morinville is Mrs. J. F. Williams, daughter of Mrs. and Mrs. Pete Conway.

Northern Fires First of Season

First ground fires this spring were reported during the week-end to the Alberta forestry branch, government official said Monday.

The fires have broken out in the Lac la Biche area and about five men have been assigned to keep them under control.

Under new government regulations this year, farmers and settlers are not permitted to start any fires for brush clearing. In other years they were permitted to make application to the provincial government for special permits for burning privileges. These have been discontinued due to the extensive damage which resulted from such fires in the province last year.

These Albertans Must Cause Confusion

Shown here are four members of the Schmaltz family of Belseker. What's so unusual about that? Well, they're not just of the Schmaltz clan, but are, left to right: Peter Schmaltz, Peter Schmaltz, Peter Schmaltz, and Peter Schmaltz. At left is Peter, age 16, son of Peter, second from right, second from left is Peter, cousin of Peter, second from right, and at right is Peter, son of Peter, second from left. Confusing, isn't it?

Siamese Twin Calfs Said Born Near Edmonton

By CONSTANCE REINER

ONOWAY. — Of all the freaks that nature has ever created, one of the most outstanding was brought to light here this week when Siamese twin calves were brought into the world by Dr. Angus Campbell, district veterinary surgeon.

Possessing two heads, one front quarter, two hind quarters, and eight legs, the calves, which were stillborn, had only one heart and one pair of lungs.

They were born to a cow owned by George Stephenson of Lac Ste. Anne.

Dr. Campbell was called to the Stephenson farm when it was realized the cow would have extreme difficulty in calving.

After an examination Dr. Campbell concluded that the cow would not be able to bear the calf normally. Having been running out all winter the cow was in poor condition to be operated on, and a decision was made to shoot the cow, even though it would also be

fatal to the calf.

The strange offspring was then taken away.

Dr. Campbell asserts that if the operation could have been performed the calves would have been saved, making one of the greatest peculiarities ever known. He states he has heard of such deformities before, but in 20 years of practice he has never actually seen one.

Religion for Moderns

Prophet Ranked As Greatest of Men

Hosea was a native of the Northern Kingdom, Israel, the only one of the prophetic writers from that section. While the Prophet Amos used the figures of the shepherd, Hosea used those of agricultural life. Amos looked upon the evidence of Jehovah's might and justice; Hosea upon fertile fields and tree-clad hills, which spoke to him of Jehovah's love and his gracious provision for his people's needs.

As pointed out last week, Hosea's message was inspired by his own personal tragedy.

"The first division of the Book narrates this sad experience, and illustrates one social ideal of Hosea, his conception of the sanctity of the marriage relation," says President William Bennett Bizzell.

"We are told that he was married to a young woman by the name of Gomer, the daughter of a certain Dublin. He probably procured his wife, by purchase, which was in conformity to established custom. It is not improbable that the young wife possessed all the attributes that a high-minded young man would expect to find in the woman of his choice. But Hosea had not yet measured the seductive charm and the licentious practices that had gained headway in the religious ceremonies of the day, and he little dreamed how these rites were to fascinate his wife, and cause her to neglect her home and forget the obligations of her domestic ties."

"The wife abandoned her home. Her descent to degeneration and infamy was rapid," continues President Bizzell. "Her complete humiliation finally came—she was to be sold in the slave market. While she had sacrificed all right to his protection, still this man could not forget that she was his wife, and he went into the slave market and bought back the woman for fifteen pieces of silver and a homer and a half of barley. In defiance of established custom and public opinion, he restored her to his home and placed her under his loving protection."

Hosea was the prophet of salvation. He indorsed the protest of his predecessor, Amos, against mere formalism in religion and one of his verses has been described as the greatest utterance of the Old Testament, namely, "I desire goodness and not sacrifice, and the knowledge of God more than burnt offerings."

Concerning the Book of Hosea, Dr. George L. Pettit says, "Many of the more familiar verses of the Bible, verses that are like household words, often quoted and well known, are flowers culled from the charming garden of Hosea. Yet Hosea, as a book, is perhaps one of the least read of all the Bible Books. Open the Bible and see if Hosea's pages are not among the cleanest, and Hosea's leaves among the least worn with thumbing of them all. For this there is a reason. Hosea is perhaps the obscurest Book of all the Bible Books."

Notwithstanding Hosea's condemnation of the sins of Israel, he preaches divine mercy. "For I am God and not man and I will not come in wrath." And this golden close of the denunciations, this pointing to the resplendent arc of the rainbow of mercy amid the

darkest bursts of storm, is the most marked characteristic not of Hosea only, but of Joel, Isaiah, Micah, and all the greatest of the true prophets.

They say that in the nature of things, there are irreconcilable antinomies—that is, laws apparently conflicting, apparently contradictory, which are equally true, though irreconcilable because their ultimate unity and reconciliation runs up into regions of infinitude beyond our feeble grasp," says F. W. Farrer.

What's in a Name Of a School?

In the past few weeks two teacher-inspired events in Alberta have gained international prominence. That's tremendous news and it's a great credit to Alberta teachers, particularly to the two teachers concerned.

In the whirl of publicity that has encircled Donna Henderson's rise to Canada's Cinderella Girl, and Gordon Feller's fame as the teacher who instituted Little Lake Success, a rather interesting observation has gone unnoticed.

Both schools which are the centers of this fame and prominence are named most appropriately for the events that have made them famous. Donna Henderson attends God Hope School. Donna and her teacher Miss Isabel Smith, who entered her in the nation-wide contest, must have lived in "god hope" for many weeks while the judges in Toronto went through more than 9,000 entries before declaring Donna the Cinderella Girl of Canada. Their hopes and wishes certainly came true.

South-east of Red Deer is Loyalty School. Here social studies classes are conducted as a miniature United Nations Security Council. This procedure has gained international prominence and Loyalty School children and their teacher Gordon Fellow, who is heading for Lake Success in July, Mr. Fellow's purpose of teaching by this method is to more co-operation and world peace and loyalty among nations. There is a better place to begin such a movement but in a school by the name of 'Loyalty'!

Lawyer Scores Police Methods

A scathing denunciation of Edmonton police methods prohibiting solicitors from having private talks with prisoners was delivered in police court recently by barrister Walter Beaumont.

Mr. Beaumont's complaint to the court came during the case of a 19-year-old girl, arrested on a vagrancy charge. Mr. Beaumont appeared on her behalf.

The lawyers told of going to the city police station twice last week and each time being told he could not speak to his client unless the police matron was near enough to hear the conversation.

Chief Constable Reg Jennings said the matter will be reviewed by the Attorney-General's department, as a result of an inquiry by Mr. Beaumont.

"Detective - Sergeant William Smith told me things were very bad, and that if the police couldn't hear both sides of a conversation between lawyer and prisoner, the chances of conviction are one in 500," Mr. Beaumont said. Sgt. Smith is head of the police morality squad.

Chief Jennings said the rule prohibiting private conversations exists for reasons of security. He explained police are responsible for prisoners, and must be extremely cautious.

Liberals Reported Gaining Ground

Mrs. C. H. Trapp, regional director of the Alberta Liberal Association, reports that organization is proceeding in her region. A club was formed at Bickerdike May 12. Officers are Roy Bromm, president; Mrs. Robson, vice-president; and Harry Wadley, secretary-treasurer. A white drive was conducted after the business meeting.

New Catholic Archbishop Consecrated

Monsignor Paul Emile Leger is seen approaching the altar before he was consecrated archbishop of Montreal in a solemn ceremony held in Rome. Presiding over the ceremony was Cardinal Piazza, who was assisted by the archbishop of Quebec, Maurice Roy, and Julien Weber, bishop of Strasbourg.

Ex-Convicts Need Aid, Rotary Club Is Told

George B. Henwood, district chairman of the John Howard Society, outlined the work of the organization, which assists ex-prisoners, at Tuesday's meeting of the Rotary club in Strathcona Presbyterian church.

Mr. Henwood told of the growth of the society from its official organization in 1948. He talked on the basic aim of the society — the rehabilitation of discharges from the penal institutions and jails. Much co-operation has been received from business firms in the matter of job placements, but a much greater degree of co-operation will have to be attained in order to discharge fully the society's program, he said.

Growth of the John Howard Society, said Mr. Henwood, was largely implemented by the Archambault report, officially considered in 1946. This report, the result of examinations of penal institutions in many parts of the world, actually had been completed just prior to the outbreak of the Second Great War, but was shelved during the conflict.

Mr. Henwood was introduced by Leroy Williams, chairman of the meeting.

SAM'S TWEED SUIT

If you're down around Mobile way and you spot a rooster strutting around in a smart tweed suit, don't take the pledge. It's only Sam, the featherless fowl, showing off his sartorial splendor.

When Sam was hatched some eight months ago, he didn't have any more feathers than a billiard ball. And Sam stayed that way. It was a miserable life, but finally Mrs. Anne Brown of Ontario, California, learned of Sam's distressing plight through an Associated Press wirephoto. Mrs. Brown thereupon wrote to Nick Hasselvander, Sam's owner, and generously offered to sew a wardrobe for the web-footed rooster. Hasselvander promptly sent Mrs. Brown Sam's measurements, specifying that Sam should be outfitted in something warm so that he can "saunter out to see something of the world."

Shivering Sam can hardly wait for his new tweed suit. That should be something really worth crowing about.

—Joseph Payne Brennan.

Boys' Band Plays At Park Opening

Official opening of Elk Island National Park on Sunday, May 21st, featured the Edmonton Scholboys' Band presenting an afternoon concert in the Band Shell to inaugurate the summer season of Sunday programs.

Fifty boys of the senior section of the band, under the direction of Bandmaster T. V. Newlove, presented selections ranging from Sousa and Von Suppe to novelties and boogie woogie. Some solo numbers were heard, and the band's majorettes were also on hand to show off their talented twirling routines.

This was the first of the 1950 summer series of Sunday afternoon concerts arranged by the Provincial Cultural Activities Branch, in co-operation with Park Superintendent B. I. Love and officials of the National Film Board. A number of vocal and instrumental groups from Edmonton and neighboring towns have made plans to take part. Concerts start around 3:30 p.m. and are open to all.

Alberta Sets Record For T.B. Seal Sales

Although it is Canada's fifth province in population, Alberta again established several Canadian records in the 1949-50 Christmas Seal sale, according to C. Robert Dickey, general secretary of the Alberta Tuberculosis Association.

Alberta had the highest percentage increase in Canada, 14 per cent as compared to the Canadian average of 5 per cent. Alberta's seal sale committee also had the highest proportion of the population on their mailing lists.

Second highest per capita receipts were received in Alberta, 18½ cents. This was exceeded only by Newfoundland, with 19.7 cents per capita.

Newfoundland also was the only province to exceed Alberta in the proportion of letters returned with money.

Third highest dollar volume was shared by Alberta, beaten only by Ontario and Quebec.

Alberta's average contribution was \$1.83, exceeded by only two other provinces, Saskatchewan and Ontario.

Mr. Dickey said, "We are very proud of the people of Alberta and of the seal sale committees, sponsored in Alberta by Rotary, Kiwanis and Lions clubs in various cities and towns. Most of the work is voluntary and we have no budget for advertising. The press and radio industries of Alberta give us the best support in all Canada, helping to keep our costs down to a record low."

Youths Cause Fracas In South Edmonton Pub

Two young men who gave a South Edmonton special constable a lot of trouble, paid the penalty in Magistrate Main's police court this week. The two, Thomas Marshall and John R. Ward, each were fined \$15 and costs or 15 days in jail.

Special Const. Duff said the pair created a fracas in a South Side beer parlor, using abusive language, and refused to leave the beverage room when requested.

SDA's Raise \$419 For Flood Fund

Saturday, May 13, was a very special day in the Seventh-day Adventist Church in Edmonton.

At the regular Sabbath morning service a baptism was conducted. Baptism by immersion, only for those old enough to comprehend the meaning of repentance and conversion, which rules out infant baptism, is believed in and practiced by the church.

An offering was received for the Winnipeg Flood Fund amounting to \$419, which will be added to its certain pledges are paid up. Besides this, several cases of good clothing and rubber boots have already been sent to the city of Winnipeg. More cases of clothing and more funds are expected in the next few days, Mr. Ainsley Blair, Pastor of the church said.

The music for the service was supplied by the fifty-voice choired choir of Canadian Union College, Lacombe, Alberta. The choir also rendered a concert of sacred music in the afternoon. Portions of John Stainer's "The Crucifixion" and George Handel's "The Messiah" were among the numbers presented.

Conductor was Robert Searr, L.R.A.M. Presiding at the piano was Miss Eva Carilli, A.T.C.M. The special speaker at the morning service was Don F. Neufeld, department of Biblical languages at the College.

The Canadian Union College Girls' chorus, under direction of Mrs. Ivan Crawford, will render a program of music on Saturday afternoon, June 3, at 5:00 p.m. at the Seventh-day Adventist church, corner 96th street and 109th avenue. Public is cordially invited.

When in the city shop around the corner and save.

Miracle of Migration Brings New Life to Once Hopeless DP's

By GEORGE MURRAY

NEW YORK. — The sun came out this afternoon. That was big news. The Queen Elizabeth and other ships which had been standing off under a blanket of fog for hours began to move into the harbor. One of the ships was the United States Army Transport General J. H. McRae, and for the 1,166 refugees aboard, the sun had come out in more ways than one.

As these displaced persons disembarked, their faces reflected hope for new homes and new opportunities in a land of the free.

Hundreds of relatives and friends crowded the pier to greet many of them, but there was a warm welcome for all the newcomers as they were met by representatives of the National Catholic Welfare Committee, American Joint Distribution Committee, Hebrew Immigration Aid Society, Church World Services, National Lutheran Committee, United States New Americans and other organizations. The representatives, distinguished by arm bands, would escort them to their sponsors in various parts of the United States.

But this was the happy ending

of only one chapter in the story of the International Refugee Organization, largest of the specialized agencies of the United Nations, commonly known as I.R.O.

Operating a fleet of 36 ships,

of only one chapter in the story of the International Refugee Organization, largest of the specialized agencies of the United Nations, commonly known as I.R.O.

Operating a fleet of 36 ships,

Here is the heart-warming, reassuring story that the world waited ten years to hear written by a man who was there.

using chartered planes and special trains, IRO is directing the greatest peacetime migration in the history of humanity.

Of more than 8,000,000 displaced persons—Hitler's scrap heap of slave labor and racial and relig-

ious persecution, approximately 6,500,000 have returned to familiar surroundings to pick up their war-shattered lives. The remaining 1,500,000 were persons who, now on the other side of the "iron curtain" decided not to return to their respective homelands.

During the past two and a half years, since the Preparatory Commission of IRO took over the job of looking after refugees, about 950,000 have been aided by the IRO care and maintenance program, mainly in the DP camps. Of

under the conditions prevailing in their homelands.

Why would these persons not return? That is what Allied UNRRA officials were asking themselves with the advent of 1946.

For the answer, let us consider the Balts, citizens of Estonia, Latvia and Lithuania, and delve a little into their background story.

Lying midway between East and West, these Baltic states have had a turbulent history. From the

earliest times they have resisted the German "drive to the east" and have acted as Europe's shield against Russia. For a hundred years before they gained their independence they chafed uneasily at the chains which bound them to Tsarist Russia. Then came the Bolshevik Revolution in October 1917 and the proclamation that the will of the people must decide the future of States, even to the point of separation from Russia. That offered the Balts the opportunity of realizing their long-cherished dream of freedom. It was not before that proclaimed freedom had been defended by force of arms and their determination had been sorely tested that independence did indeed become a fact. All three states achieved in 20-odd years a high standard of living and culture, comparable with only the most progressive of European countries, and proved themselves fit for freedom.

This happy era was brought to an abrupt close by the signing of the infamous "Ribbentrop-Molotov Pact" in 1939, when Hitler, to obtain a free hand against Poland, declared the Baltic states to belong to Russia's sphere of influence. In 1940 the Red army marched in, and framed elections backed by Red bayonets brought the "unanimous demand" from the Baltic states to be included in the USSR as Soviet Socialist Republics. Their incorporation into soviet Russia has never, to this day, been recognized by the United States of America or by Great Britain.

The Baltic peoples remained where they were almost to a man during the first soviet occupation of 1940-41, also during the later German occupation. They had nowhere else to go for one thing, and had no idea of the real nature of the impending changes. They were therefore very favorably placed to observe the process of the sovietization of their homelands, and are in a position now, having fled their countries in 1944, to give a detailed account of what went on in every sphere of life under the soviet domination. They all testify that only by such excesses as terror, concentration camps, typhus, scurvy, starvation and forced collectivization, only by renewing such medieval processes as inquisition carried out by the dreaded MVD, only by the absolute suppression of all liberty, turning the population into unthinking cogs in the agricultural or industrial machine, was the USSR able to realize its experiments in the Baltic states.

Propose Plan of Action To Combat Any Depression

The International Labor Office has made public a long-range survey of world unemployment conditions and its program to avoid another depression.

The ILO economists, in a study prepared for debate by the worker, employer and government delegates of 60 nations at its general conference opening in Geneva, June 7, warned against certain signs pointing to a possible increase in unemployment.

They declared, however, that depression can be avoided by means of prompt and adequate international and national action. They said:

"The recognition that unemployment and underemployment are social evils which can be eradicated represents a landmark in the thinking of modern times. No longer is there a passive acceptance of the inevitability of unemployment and poverty."

The ILO economists warned that the maintenance of full employment "is no easy task." Concerning the present world situation, they found:

1. "In the United States the rise in unemployment in 1949 was due mainly to the liquidation of inventories held by manufacturers and wholesale dealers.

2. "In the Bizone area of Germany, a major factor responsible for the upward trend of unemployment in 1949 was the rapid increase in the labor force consequent upon the large-scale influx of refugees.

3. "The unemployment problem in Italy is, to a large extent, of a chronic character, originating primarily in the lack of employment opportunities in southern Italy. The main solution to this problem lies in the acceleration of capital formation so that the idle workers can have the necessary physical equipment with which to work and to produce.

4. "The increase in unemployment in Belgium in 1949 can be ascribed, to a large extent, to the increasing sales difficulties experienced in the export industries.

5. "While, with the exceptions noted above, the great majority of the industrial countries in 1949 experienced low unemployment and utilized manpower more fully than before the war, the employment problem in the underdeveloped countries remains as serious a problem as it was before the war."

In summarizing the ILO experts declared:

"A first line of international

action to help to solve the problem of unemployment in the underdeveloped countries is to expand the flow of long-term capital from the advanced industrial countries to underdeveloped countries for purposes of economic development.

"A second line is for the advanced industrial countries to put their accumulated technical knowledge and experience at the disposal of the underdeveloped countries. International action in this vital field has now begun to take concrete shape in the form of President Truman's Four Point Program and the United Nations expanded program of technical assistance.

"A third line of international action lies in the field of international migration.

"Exchange of international experience regarding methods of improving employment services and of organizing training and vocational guidance and the provision of technical assistance from one country to another could do much to reduce the volume of frictional unemployment in countries which lack experience in the organization of the employment market. In this field the ILO has accumulated a great deal of experience, and is ready to offer technical assistance to countries in need of such assistance."

THE CELLAR STAIRS

The cellar stairs are a common scene of accidents in the home. You can make your cellar stairs safer by making sure the lighting is adequate and that a handrail is provided. Then all that is necessary is a concentrated course in "safety first" for children and adults alike.

WHO Knows

1. For how long has Harry S. Truman been President of the U.S.?

2. Name the new U.S. Secretary of the Air Force.

3. What is the doctor-patient ration in the United States?

4. What queen abdicated her throne on Sept. 4, 1948?

5. Who originated "Poor Richard's Almanack"?

6. What Republican has become foreign policy adviser to Secretary to State Acheson?

7. How many card-carrying Communists are there outside the Iron Curtain?

8. Liberia is soon to have its first railroad. How long will it be?

9. How many women are working for the Government?

10. In what direction is the U.S. population shifting?

THE ANSWERS

1. He completed his fifth year on April 12.

2. Thomas K. Finletter.

3. One doctor to every 750 inhabitants.

4. Queen Wilhelmina, of Holland.

5. Benjamin Franklin.

6. John Foster Dulles.

7. An estimated 12,000,000, mostly in Europe.

8. 45 miles, from Monrovia, the capital, inland to the Bomi hills.

9. 422,000—25 per cent of the total number.

10. Westward.

Liberal Group Urges Women Named To Senate

Several resolutions to be forwarded to the annual meeting of the National Federation of Liberal Women of Canada being held in Ottawa June 9 and 10, were passed at a meeting of the Edmonton Women's Liberal Club held in the Y.W.C.A. recently.

Since Prime Minister St. Laurent, in his speech to the women of Canada urged more participation

by women in political affairs, and since women compose fully 50 per cent of the adult population and have proved themselves capable in business, home building and citizenship training, the resolutions

called on the prime minister as head of the government of Canada to recognize this status by setting the example in appointing more women to public office, and giving representation in the senate of at least one woman in each province.

Other resolutions dealt with pensions for incurables, radio programs, health and welfare, and food surpluses.

Mrs. F. J. Conroy, president, will attend the Ottawa convention in her capacity as dominion regional vice-president, and Mrs. W. Philion

as delegate for the club.

Mrs. Conroy led a discussion on the health plan as outlined by Hon. Paul Martin, minister of health and welfare. A survey of health facilities was made before the construction of new hospitals, and the sum of \$448,000 has been given by the dominion government to the Aberhart Memorial hospital, she said. Mrs. Conroy gave a resume of money and securities a person may possess while receiving the old age pension. There are 293,000 old age pensioners in Canada, to whom \$30 monthly is contributed by the dominion government. The provincial governments of British Columbia and Alberta add \$10 per month to this, and an additional bonus of \$10, making \$50 per month in all.

Tribute was paid to a charter member of the club, the late Miss Jean Boyle.

KIRK'S FURNACES

New Artery For Oil Stretches Across Plains

Soon Canada will have one of the great oil pipe lines of the world. It will span a third of the continent and link the western oil fields with the east.

Since construction started, public interest in the project has reached a new high. In response to that interest this article has been written to tell the story of Canada's new artery for oil.

Why a Pipe Line?

Taking goods to market by the shortest and least expensive means is sound economics in any branch of commerce. That applies as much to crude oil as it does to wheat or boots and shoes.

A high-pressure pipe line meets these requirements better than any other type of transportation, when movement of a liquid, such as crude oil, is involved.

The pipe line will mean western oil can enter Ontario and still meet prices now paid for oil imported from the U.S. and South America. It will mean western producers can reach those markets and still receive adequate returns for their output at the well-head.

The pipe line will be efficient, economical means of distributing oil to those who need it but who live far from nature's sources of supply.

Who Will Own the Pipeline?

Ownership of International Pipe Line Company will be divided as follows:

- 42% owned by the public;
- 33% owned by Imperial Oil Limited;
- 25% owned by other Canadian oil companies and private interests.

Lakehead Pipe Line Company, Inc., as a wholly-owned subsidiary of Interprovincial, will own and operate the 360 miles of pipe line in the United States and the terminal at Superior.

The line will operate as a common carrier, moving crude for any producer who meets standard regulations.

What Will the Pipe Line Handle?

The pipe line's traffic will be provided by western Canadian crude oil destined for Canadian refiners between the new oil fields and the Sarnia, Ontario, area.

Initial rate of flow will be 95,000 barrels a day from Edmonton to Regina, and 70,000 barrels a day east of Regina.

Addition of more pumping equipment when crude production warrants will increase the capacity out of Edmonton to about 130,000 barrels a day. These intermediate pumping stations will not be built immediately.

How the Line Is Built

Specialists and specialized equipment are needed on a construction project such as this. Nine groups of these experts and the unique tools of their trade are at work on nine separate sections of the line between Edmonton and the Great Lakes.

Each unit or spread is progressing about one mile a day. Six Canadian spreads are working westward and three spreads in the U.S. are working eastward.

Work which visitors to spreads see today was in the planning stage for more than two years.

An aerial survey was made of the entire route. Surveyors walked the route staking the exact right-of-way. Land agents negotiated with more than 2,500 land owners to obtain written permission for construction across their fields.

Thousands of plans and specifications were prepared by engineers for the line, the intricate control mechanisms and the six pumping stations which will keep the oil moving through the line. Ahead of construction crews now at work, advance parties cut

fences and install gates at every field.

Stringers place the 40-foot joints of pipe on the ground ready for welding.

Big diggers cut a trench five feet and 30 inches wide. Welders link the joints into a continuous tube and before it is lowered into the ditch a tarring and wrapping machine does its job on the cleaned and welded pipe.

Bulldozers backfill the trench and on cultivated land the ditch is tamped and left level. Thus normal farm operations can be resumed over the right-of-way immediately after the final clean-up crews leave the location.

The Pipe Liner's Jargon

Don't be disturbed by the pipe liner's strange language when he speaks of:

Boom Cat—A caterpillar tractor with a boom for lifting and moving heavy pipe.

Cherry Picker—Like a boom cat with a swinging movable boom.

Pig—A circular, bladed instrument drawn through pipe to clean it.

Dope Pot—A large kettle to heat the coal-tar enamel pipe coating.

Pipe Cradle—A travelling dolly on wheels moving under pipe ahead of coating and wrapping equipment.

Digger—A big, circular trenching machine to dig a pipe line ditch.

Night Cap—A small steel covered welded to open pipe ends at the close of each work day to keep line interiors clean.

Stringer Band—The first tack weld made as pipe joints are lined up.

Spread—A complete construction unit, embracing all machinery and crews.

Kick-off Point—Where a spread started operations on the line.

Some Facts and Figures
The main line will cost an estimated \$90,000,000; the Redwater extension an additional \$2,500,000. About 175,000 tons of high-test steel will be used for pipe—enough to make 118,000 average-sized motor cars.

It will take about 26 days for a barrel of oil to move from Edmonton to Superior.

Cutting the trench in which to bury the line will mean excavating more than 2,250,000 cubic yards of earth.

Building 1,180 miles of pipe line in 150 days is the fastest work schedule ever set for a project of this size.

About 5,500 railway carloads of pipe and equipment will be moved thousands of miles before the line is completed.

Storage tanks at Edmonton and Superior are more than 140 feet in diameter—bigger than the diamond of a major baseball park.

The two largest tanker ever built in Canada, now under construction, will carry crude from

Women's Club Marks Twentieth Anniversary

EDMONTON. — The 20th Century Women's Liberal Club celebrated its 20th anniversary on May 15th with a Chinese dinner at the home of Mrs. Mel Taylor. Several charter members of the club were present, and the birthday cake was cut by Mrs. Jas. Wallbridge, first president of the club. Mr. Frowse spoke briefly to the group, as did Mr. Nelles Buchanan, treasurer of the Alberta Liberal Association. The party was a huge success and several new members joined. Telegrams of congratulations were received from the Honourable James A. MacKinnon and Mr. Geo. Prudham, M.P. for Edmonton West.

Superior to refineries in the Sarnia, Ontario, area.

What the Pipe Line Means To Canada

Every barrel of oil produced in Canada and used by Canadians means a barrel less to be imported and paid for in U.S. dollars. The completed line will mean immediate and substantial increases in crude oil output from Alberta oil fields. That increased production will go to Canadian refineries resulting in fewer imports to meet their requirements.

It is estimated that completed pipe line will improve Canada's dollar exchange position by \$130,000,000 in 1951. As the line's volume increases and import needs decrease, so will the savings of U.S. dollars become greater.

Increasing the output from the oil fields will mean more revenue to the producers. Most of this will find its way into the economy of the area with benefits to many communities.

The Alberta government owns 98% of the sub-surface mineral rights in the province and receives most of the royalties from oil production. Increasing field production will mean greatly increased royalty payments to the province. They are already calculated in millions. All Albertans will benefit from their governments healthy financial position.

New refineries will be built in western Canada and existing plants will increase capacities when oil flows through the line. Construction has started on one new plant; plans are progressing to the industrial life of the west.

More and bigger refineries will produce more petroleum products for Canadians. Cheaper transportation could mean lower prices on finished products, benefiting all consumers.

All these influences will reflect favorably on the economy of the country as a whole, with completion of the new artery for oil.

Highland Games To Be Best Ever

Highland dancers and pipers are expected in South Edmonton from across Canada for the annual Highland Games to be held at the South Side athletic grounds July 1.

At a preliminary executive meeting in the Kingsway Legion Monday night, officers of the association reported a bigger turnout than ever before is expected this year. In addition, the athletic committee promises a program and prizes which will maintain the field and track section's position as one of the best in Canada.

The committee is headed by Chieftain Tom Campbell, President Jack H. Campbell, Secretary Hector Macrae, and Vice-presidents A. Maclellan and D. Barclay. Jack Riley of the recreation commission is in charge of athletic events and Arthur Miller, piping and dancing. Events which will be held again this year include the heavyweight tug-of-war contest, tossing the caber, discus and pavinin throw, throwing the weight, and long distance bicycle races.

The Scottish section of the program is being augmented and the committee reported much interest from Scotland during the past year. It is being shown by hundreds of newcomers who have arrived here

Solution to Last Week's Puzzle

Good Health
for
ALBERTANS

DANGERS TO SIGHT

Accidents involving the eyes are among those most frequently found in industry and by far the majority of these accidents are caused by flying particles. Most eye accidents of this type are preventable and would not occur if workers were provided with and required to wear safety goggles and other safety equipment.

SAFETY AT CAMP

Going camping this summer? If you are, the chances are the milk you buy will not be pasteurized. Raw milk may often carry disease germs that can cause serious illness. Take no chances with your milk supply. It can be pasteurized easily and quickly at the camp. Your local health department will be glad to instruct you in this matter.

SLEEP AND HEALTH

Dancing until dawn may be romantic but when it means two hours sleep before a heavy day, it loses some of its glamor. Every one, regardless of age, needs an adequate amount of sleep to stay healthy. Most of us need an average of eight hours a day. It's wise to time late-night parties for the week-end when the following day's activities may not be so pressing.

DON'T BE FOOLED

Quacks and frauds find cancer patients among the easiest victims available. Don't be taken in by unscrupulous characters who are willing to sacrifice your life to make a dishonest dollar. If you suspect you may have cancer, see a qualified medical doctor at once. No amount of pills, salves or lotions can cure cancer and many of them are actually harmful. Treated early by a competent doctor, many cancers can be cured.

FOR HEALTHY TEETH

Scientific research has discovered methods whereby it is hoped a large percentage of dental decay will be eliminated. But until these new methods have been thoroughly tested and brought into widespread use, one of the best methods of maintaining good dental health is the regular use of the toothbrush. Twice-yearly visits to the dentist are also a "must" for good dental health.

'Attention Farmers'

If you have Gravel or Sand on your farm we are in the market to buy.

Letter to Louise

Girl Says She Loves Boy
More Than He Loves Her

Dear Louise:

I am madly in love with a boy. He has won my heart forever but I don't think he loves me more than one half as much as I love him. Please tell me how I can get him to love me a little more than he does.

Louise, another thing I want to ask you. I am almost sixteen and my parents are sort of old-fashioned. They seem not to want me to go to the movies with a boy after dark. I always have to be home at six o'clock although the boys I go with are nice. In fact I have never been out with a boy after dark and that is worrisome. Tell me if you think it is all right to be out until 10:30 or 11 o'clock.

H. V.

Answer:

The time you get in at night depends to a large extent on the kind of girl you are, the kind of boys you go with and the kind of community you live in.

If you are a level-headed girl, who knows right from wrong and how to behave herself and if the boys you go with are not much older than you and have good reputations, I see no objection to your parents letting you go to the movies in the evening, during the week-end.

Of course, that depends, too, on how far away the movies are from your home. If they are a good many miles, I think it would be wise for you to go with another couple but if they are just a few blocks and not through a rough district, I see no reason why you shouldn't go alone with a boy.

However, if your parents object, it is better to obey them than to sneak out. The girls who meet boys on the street corner cheapen herself and fails to have the respect of her boy friends.

As to telling you how you can

make this boy love you more than he does, I am sorry to say that I cannot tell you. Love is something, that cannot be forced and very often a girl loses her boy friend by pursuing him too openly.

In other words, don't let him know you are after him! You are very young and will probably be "madly" in love several time before the real one comes along.

LOUISE.

Another girl writes that the boy she has fallen for and has been going steady with for eight months is also taking another girl out. She wishes to know whether she should make him understand that she won't stand for such treatment or just call the whole thing off.

As she is in high school and rather young, I think she would be wise to tell this boy that if he doesn't care to go steady, both of them will date other people.

Certainly it is not fair for her to refuse other dates when he goes out with another girl.

Weekly Garden-Graph

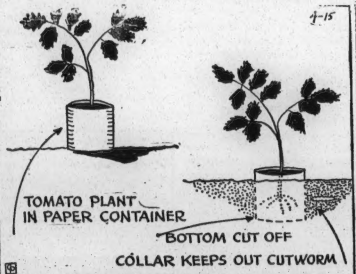

By DEAN HALLIDAY
Released by Central Press Canadian

An easy way to move seedlings of tomatoes, peppers, cucumbers, melons and other vines which resent any disturbance of their roots is to transplant them into paper bands or pots from the seed flats. Small pots can be obtained for this purpose which are made of peat, pulp, paper or manure.

As illustrated in the accompanying Gard-Graph, the paper pot and enclosed soil and plant can be set out in the garden without any disturbance of the root system. As a result of this method of transplanting, the plants are not set back in growth and they, therefore, pro-

duce an earlier crop. If the pots have been treated with a water-proofing material, however, the paper must be removed at transplanting time, since roots cannot grow through paper so treated.

When paper pots are used for seedlings the bottoms, of course, should be cut off at transplanting time, as illustrated. Such paper pots or bands are also valuable in protecting the plants against the attacks of cutworms. As illustrated, the paper pot should be set in the ground with at least an inch of it above ground to serve as a paper collar for protection.

Good Health for ALBERTANS

COOL, CLEAR WATER

With spring rolling around the hiking fraternity begins to look to their hobnail boots and haversacks. The experienced hikers know that their summer's sport man be ruined by diseases contracted drinking polluted water. These veterans avoid drinking from streams and abandoned wells and, when forced to use water from other than regular sources, boil it thoroughly before drinking.

MOTHER'S MORALE

There's nothing that lifts the morale of a housewife like the occasional "dinner out". Cooking meals day in and day out is apt to get monotonous at times and, like everyone else, the homemaker needs a change once in a while. She'll enjoy her own cooking more after the occasional restaurant meal.

WHEN BUYING SALT

Take a second look at the label next time you buy salt. Does it say "iodized"? Iodized salt tastes the same as ordinary salt but it has been treated to prevent simple goitre. Most of us need a certain amount of iodine in our diet, particularly if we live in those areas where seafoods are not abundant.

THE EYES AT FAULT

Many automobile accidents can be traced directly to a disease called glaucoma, a condition which restricts the ability of a driver to see well in directions other than directly in front. Frequently glaucoma has no symptoms that can be detected by the layman or even an optometrist. A medical eye specialist is the only one who can discover and treat this condition successfully.

THE FIGHT AGAINST CANCER

During recent years millions of dollars have been spent and many of the world's top scientists have been engaged in a battle against cancer. The fight has not been without positive results and now many cases of cancer, if discovered early, can be cured. If you have reason to suspect cancer, don't let fear or neglect put you off. See a qualified physician at once. Time is important.

Gradually the "little red school house" is disappearing and making way for larger consolidated schools, to which children in the country ride by bus.

LOUISA'S LETTER

Dear Louisa:

I've been married nine years and have three children and here is my problem. My wife seems to think that if she is not out waiting on some neighbor, or some church organization that she is not doing right. This is what I don't like. In order to do the above she will neglect the children and the house.

I am very fortunate in that I have pretty good working hours and am able to come home at noon for lunch. Most of the time there is no noon meal fixed, clothes scattered all over the floor, dishes on the table and in the sink. Some of the dishes in the sink have been there for two days. Two of our children go to school and come home and find nothing to eat because she is too busy out talking to the neighbors. You can well realize what effect this has upon my job.

I've tried to tell her that we have a certain amount of money to live on and that's all but she won't sit down and work out a budget because she doesn't believe in them. She will go out and run up charge accounts all over town and won't say anything to me about it. I owe so many people in town now that I don't know which way to turn and if you ask her to sit down and talk these things over before she does it, she feels like that it is an insult.

We all have some nice clothes but she don't try to keep them picked off the floor so they will last. If you tell her to please keep things nice and picked up she says, "If you don't like the way I keep this house, you can get out." I don't smoke, don't drink and don't care about running around. We have been in our new home about three months and I enjoy working in the yard. Now can I come home and enjoy working in the yard when I find clothes scattered all over the floor and dishes stacked up in the sink? I'll stop and clean the kitchen for the children's sake.

If there is any advice on the

above problem you can give me, it will be appreciated. If it wasn't for the children I am sure I know what I would do but that is where the big problem comes in.

I have about reached the end of my rope and don't know what to do.

DISGUSTED—S.E.

Answer:

A woman's or a man's first duty is to their family and after that they can work for other people or organizations as he or she may see fit. But the woman who neglects her children, her husband and her home is not a good woman regardless of what she may be doing for the public to see.

If she thought that she would lose her "job" and be asked to get out and let some other person come in and keep house, she would probably change her ways and begin to carry her share of the load. You certainly have my sympathy—for a man who likes to come home from his job and work in the yard and around the house is a pearl above price and it is a pity that your wife doesn't realize it.

You might tell her that you are stopping all charge accounts and that if she doesn't take care of the children, you will hire some body who will and pay for it out of her clothes allowance.

LOUISA.

Fashion Parade Draws Capacity Crowd of 150

MANNVILLE. — The softly-draped stage of the school auditorium provided a fitting background for the Junior W.A. Fashion Parade on Saturday, May 20. This was a novel occasion for Mannville and the 150-odd attending were high in their praise of this ambitious group of girls who had put so much time and energy into making the event such a success.

President Helen O'Connor welcomed the gathering and introduced Miss Grace Morby, district home economist, who acted in the role of commentator. Miss B. Henderson was pianist.

Each member, including leader, Miss Helen Yadiowski, modelled two self-made costumes which certainly covered round-the-neck fashions, pyjamas, housecoats, slacks, sun dresses and suits; house, afternoon and evening dresses, a new barn dance creation, skirts and blouses, etc. Models were the Misses Shirley Thompson, Rita Horricks, Helen Yadiowski, Maxine Leitch, Marg Wilson, Joan and Gwen Fisher, Eileen Thompson, Sharon Rodard, Helen O'Connor, Merna Summers, Shirley Gamble, Karen Hubbard and Bonnie Proudfoot. The latter two, future members, very capably and sweetly modelled dresses made by sister Joan Hubbard and Louise respectively.

All hair styling and make-up for the models was donated by Sophie of the Elite Beauty Parlor. Congratulations Sophie! The girls did you proud!

Hat for the occasion was kindly loaned by Mr. Doan of Vermilion.

By way of variety it was announced that four professional models model fashion 1951 fashions and a roar went up when first Hercie Kufelt and Robin Stuart "gracefully" modelled bathing suits of a quarter century ago, followed by a "pretty little Miss," Bucky Fisher, complete with frills and lace, and finally Willard Jones in Grandma's flannellette nightgown and cap.

Two performances were held during the afternoon, and following each a delightful tea was served by the girls. Mrs. J. I. Jones and Mrs. H. Thompson presided at the spring-flower decorated tea table.

Other items on the program included a solo by Shirley Gamble, a duet by Gwen and Joan Fisher and a dance by Grades 7 and 8.

MANNVILLE TENNIS CLUB ORGANIZED

MANNVILLE. — At the annual meeting of the Mannville Tennis Club held here recently, Miss Ruth Gray was re-elected president. Other office re-elected were: Kevin Majewski, vice-president; Robert Shuart, secretary-treasurer; Shirley Gamble and Helen O'Connor, fee committee; and Fred Otto, court rule committee.

Following are the 1950 fees: Public school children, 75c; High school children, \$1.00; adults, \$1.50; and Family ticket, \$3.00. The club is looking forward to an active season and increased membership is hoped for.

Mr. Alvis Pace Passes Away at 76

MANNVILLE. — Mrs. Alvis Milton Pace, aged 76, passed away in Lamont Hospital on Friday, May 19th following a lengthy illness.

Mr. Pace homesteaded on his present farm in 1904 and has lived there since that time. Previous to that his home was in the States.

He is survived by one brother living in South Carolina, U.S.A.

Funeral services will be held from McQueen's United church here at 11:00 a.m. on Tuesday, May 22, with Rev. K. C. McLeod officiating.

Mannville Aids Winnipeg Relief

MANNVILLE. — A tag day sponsored by the Mannville Board of Trade, was held on Saturday, May 20th, with a total of \$141.22 being collected for the Winnipeg Relief Fund.

The Board of Trade wishes to thank the committees in charge and also those who offered their services for the tagging. "Student taggers" were Annie Dribity, Anne Kuryle, Anne Sunderland, Shirley McFadden, Elaine Townsend, Audrey Hughes, Joan Lynch, Ivor Peterson, Hazel Finlay, Shirley Brown, Merna Summers, Joan Hubbard, Shirley Thompson and Julie Ryan.

The ball game scheduled for Sunday in aid of this fund, with Mannville Ladies' Club playing Dewberry failed to materialize when Dewberry were unable to field a team. Since it was too late to contact other opposition, a pick up game was arranged, and a collection taken amounting to \$21.73.

Iceland's Althing, going on more than 1,000 years is reputed to be the world's oldest parliamentary body currently operating.

Home and School Group Discusses Aptitude Tests

MANNVILLE. — Lively discussion on questions re aptitude tests for pre-school children, and possibility of having Home Economics and Handicrafts taught in the local school, featured the May meeting of the Home and School Association held in the school auditorium, May 18th, at which approximately 50 were present.

Decision reached regarding pre-school children was that a recommendation be sent to the Divisional Board that all children should pass an aptitude test before entering school, and that the age limit for entering school should be widened to include those children having their sixth birthday by January 1st of the current school year.

It was also agreed that the need for the study of home economics and handicraft was greatly desired in Mannville's modern school, and that a recommendation be sent to the divisional board that these studies be incorporated in the curriculum commencing September of this year.

Miss Gray ably responded to the question "How would the teachers like the parents to prepare the children before school?" First and foremost, she said that she would like the child to go independent, that is, able to put on his or her

own rubbers and clothes, etc. Then, she said let the children learn all they wish before starting school, counting, words, or anything else they so desired.

The remainder of the questions on the agenda for this meeting were tabled till the June one, which according to the statutes governing the Alberta Home and School Associations, will be the annual meeting, and election of officers will take place. Present membership in this up-and-coming association is 94.

A man is weighed by the company he thinks nobody knows he's keeping.

PLYMOUTH
says
LET'S ADD UP
VALUE!

beauty
comfort
convenience

+
safety
performance
economy

Plymouth gives you practical styling that combines beauty and utility! There's roomy comfort for 6 adults... ample head and shoulder room... a fixed rear seat foot rest that provides plenty of leg room regardless of front seat position. Add Plymouth "chair-high" seats for knee-supporting comfort... seats that let you sit upright... and a host of convenience features such as automatic choke, ignition-key starting and tall, full-opening doors for easy entrance... then...

take features like Safety-Rim Wheels that give extra protection in case of tire failure... brakes that have earned an enviable reputation for safety. Add the reliable performance of Plymouth's Chrysler-Engineered, high-compression engine... steering that doesn't make you "work" at driving. With features like these and many many more Plymouth with value... and ready to prove it!

= the value-packed 1950
PLYMOUTH

See it! Drive it!
LET THE RIDE DECIDE!

In Memoriam

His smiling way and pleasant face
Are a pleasure to recall.
He had a kindly word for each
And died beloved by all.
Some day we hope to meet him,
Some day, we know not when,
To clasp his hand in the better land,
Never to part again.
— Ever remembered by the
family, Mrs. Purvis and sons.
P-M 13

Colin Mitchell Acclaimed As New Hollywood Star

HOLLYWOOD — A new male star, who came to the film capital via Broadway, is slated for the leading role in what may be the biggest movie hit of the year. Colin Mitchell, who is currently on a month's vacation in Canada, will be starring in "The Hero."

He has been appearing on Broadway, achieving his greatest acclaim in the smash-hit "Death of a Salesman."

David Brian will play a tough company commander in "Breakthrough," a picture dealing with the Normandy beachhead and the shattering of the German lines at St. Lo. The film is to be produced by Bryan Foy and directed by Lew Seiler — the two who made "Guadalcanal."

Jerry Wald wants to reunite Ginger Rogers and Fred Astaire in a musical, but he'll have to wait for some time. Ginger plans to do considerable travelling this summer.

Gene Autry running for lieutenant-governor of Arizona? Yes, but it is H. Gene Autry, cousin of the cowboy of the same name.

Proof that some Hollywood marriages do last is the fact that the David Butlers recently celebrated their thirty-third wedding anniversary, at which time they had as their guests the Leo McCareys, married 34 years, the Buddy DeSylvas, married 26 years, and the Tom Humphries, married 31 years.

Deciding that the subject of "What's Wrong With Hollywood," has been over-emphasized, Rosaline Russell recently made a talk

at the University of California, on "What's Right With Hollywood," and it went over big.

How would you like to just lie up in bed and get paid for it? That's what Barry Sullivan will do when he appears in "Cause for Alarm." He plays an invalid, doing all his scenes in bed.

The same day that Susan Hayward was given the lead in "I Climb the Highest Mountain," her husband, Jess Barker, landed a nice role in "The Milk Man," at Universal-International. Susan's film is to be made in the hill country of northern Georgia.

Dana Andrews and Linda Darnell are to co-star in "Convict Lake" — an original story by Jack Follaxon and Anna Hunger which "Twentieth Century" bought. The story's about a group of convicts who escaped from the penitentiary in the 1870's, went west and helped found Carson City.

Joan Crawford is to do a film musical, "Broadway Revisted," which Jerry Wald is preparing. It's about an actress who comes to Hollywood and becomes a film star. When she begins to fade, she returns to Broadway, hoping that one good show will make the movie moguls see her again.

One of the most dangerous hazards of this atomic age is the dust in the air, radioactive atoms having a tendency to cling to these particles.

Students Support Flood Fund Drive

BEISEKER — When the local Red Cross informed the students of the Beiseker school of the tremendous need for help of the Winnipeg flood victims, the students immediately began to devise methods of raise money.

They decided to have the pupils contribute as much money as they could. Either the teacher or a committee in each room was responsible for the money from that room. Then, on Friday, May 19, the total sum was determined. It was discovered that 74.52 had been contributed.

The High School Softball girl's team had decided to add the proceeds from their softball game on Monday 22, to this fund.

PROWSE ADDRESSES ST. LAURENT CLUB

CALGARY — The St. Laurent Club met Friday night, May 19th, with Austin LaSalle, president, in the chair. A musical program was provided by Miss Esther Robinson, vocalist, with Mrs. Burpee as accompanist. J. Harper Prowse gave a resume of the proceedings at the last session of the legislature and outlined the problems facing the joint committee of the Commons and the Senate in their attempt to arrive at a satisfactory retirement pension program for Canadians.

IN THE MATTER OF THE LAND TITLES ACT

IN THE MATTER OF THE ESTATE OF ROBERT EDWARD MOSER, late of Crossfield in the Province of Alberta, Farmer, Deceased.

Notice to Creditors and Claimants

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above-named ROBERT EDWARD MOSER, who died on the 28th day of January, 1950, are required to file with the undersigned Administrator with will annexed by them and that after that date the said Administrator will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to the knowledge of the said Administrator.

DATED at the City of Calgary in the Province of Alberta, this 6th day of May, 1950.

THE SECURITY TRUST COMPANY LIMITED, Leeson-Linham Block, Calgary, Alberta, Administrator with Will annexed of the Estate of the said Deceased.

PERCY R. BRYNENTON, 304 Maclean Block, Calgary, Alberta, Solicitor for the said Administrator.

NOTICE

IN THE MATTER OF THE GAS RESOURCES PRESERVATION ACT, being chapter 2, Statutes of Alberta 1949 (Second Session), as amended, and IN THE MATTER OF THE APPLICATION OF WESTERN PIPE LINES.

TAKE NOTICE that an application will be made, on behalf of Western Pipe Lines, to the Petroleum and Natural Gas Conservation Board, for a permit to remove gas or cause it to be removed from the Province of Alberta, for use or consumption elsewhere than within the said Province, under the provisions of The Gas Resources Preservation Act, being Chapter 2, of the Statutes of Alberta, 1949 (Second Session), as amended. (AND FURTHER TAKE NOTICE that the said Board has fixed the hearing of the application for the hour of 9:30 o'clock in the forenoon on the 19th day of June, A.D. 1950, at the Court House, in the City of Calgary, in the Province of Alberta.

DATED at the City of Edmonton, in the Province of Alberta, this 3rd day of May, A.D. 1950.

WESTERN PIPE LINES.

GOVERNMENT OF CANADA

3% BONDS

dated June 1st and November 15th, 1955

due June 1st, 1955

have been called for payment June 1st, 1950

These bonds should be presented promptly for payment on or soon after June 1st, 1950, because after that date they will no longer earn interest.

Kathryn Pee Wees Defeat Beiseker

BEISEKER—On Tuesday, May 16 the Pee Wee teams of Kathryn and Beiseker played hardball at Beiseker. The score for 10-9. The boys played very well and we are glad to see them starting to play while they are young. However, a little encouragement from our local people would boost their morale a great deal.

The lineups of the two teams were:

Kathryn—Hayden Workman, p; Frank andall, c; Harold Randall,

1b; Leonard Geier, 2b; Bob Thompson, 3b; Dennis Snyder, ss; Eric Lauritsen, lf; Johnny Lupijuck, cf; Ian MacKenzie, rf.

Beiseker—Roger Meidinger and Mattie Schmalz, p; Albert Hagel, c; Donald Schmalz, 1b; Roger
